

FIND MY RING SIZE

Please read all instructions carefully to ensure that the measurements are accurate

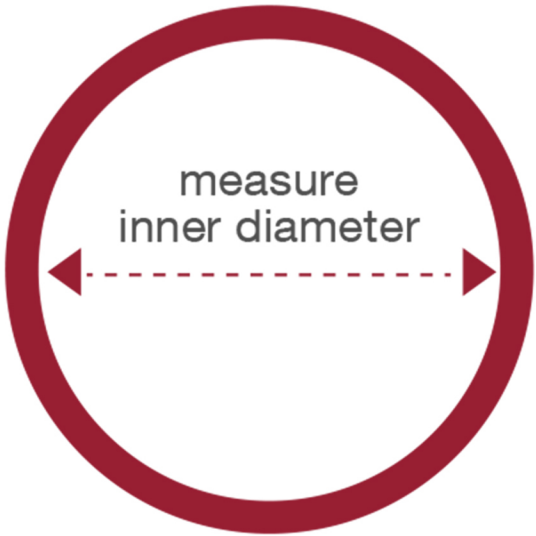

Confirm Printed Paper Size

1. Prior to printing, ensure that page scaling is set to “none” on your Print Dialog box.
2. Measure the bar on top using ruler to ensure that it is exactly 2 inches or 50mm.
3. If measurement is inaccurate, check that you are printing the page at actual size (100%) and reprint before continuing.

METHOD 1 - MEASURE CURRENT RING

1. Select a ring that properly fits the intended finger.
2. Place the ring over the circles below and match the inside edge of the ring to the circle nearest in size.
This measurement refers to the inner diameter of the ring.
3. If the ring falls between two sizes, order the larger size.

METHOD 2 - MEASURE FINGER SIZE WITH CUTOUT RING SIZER

1. Carefully cut along the outline of the sizer. Make a small slit in the left end of the sizer where it says “CUT A SLIT HERE”.
2. Wrap the sizer around the intended finger with the number facing out.
3. Slide the pointed end of the sizer through the slit.
4. Pull the sizer tightly around your finger. The sizer must fit snugly to produce an accurate size.
5. The number that lines up at the slit represents the ring size for that finger.

Tips for accurate measurement

- Avoid measuring cold fingers as this is when fingers are at their smallest.
- Measure your finger when it is at its largest, which is usually at the end of the day.
