Board Statement

Sustainability is the crux of success of any enterprise, especially enterprises with the conviction to achieve triple bottomline, namely People, Profit, Planet, for the benefits of both the private enterprise and the society.

At ValueMax Group Limited, we are committed to uphold high standards of Environmental, Social and Governance (ESG) practices within our organisation. While we are still establishing the routes in the sustainability journey, we have embraced our corporate social responsibility with conviction and fervour. We believe our sustainable growth and success is only possible with the sustainable development of the communities we operate in, be it social, business or national communities.

Driving long term sustainability is our vision. Centred on our key material issues, we have charted a four pronged approach to our sustainability development roadmap. We endeavour to set ourselves on the journey of achieving a good balance in financial growth as well as ESG performance.

Corporate social responsibility is in the DNA of our organisation. As one of the market leaders in both the pawnbroking and money-lending industries, we demonstrate our commitment through the adoption of responsible lending and borrowing practices. The Group is committed to complying with all applicable laws and regulations related to the prevention of money laundering and terrorism financing. The Board expects all Group employees to be vigilant to prevent any illegal use of the Group's products and services by money launderers, terrorists or those financing terrorist activities.

To reflect this commitment, the Company has developed a Prevention of Money Laundering and Terrorist Financing (PMLTF) Framework and the related procedures and controls by drawing on practices from other related industries with significant PMLTF compliance activities.

Over the years, we have taken the lead to implement several key initiatives to build an environment friendly culture and a caring organisation. These initiatives include embarking on Eco-Shop certifications to monitor our water and energy consumption, donating to UOB's heartbeat charity campaign, actively supporting the community through People's Association Citizens' Consultative Committees, education programmes by the Singapore Management University (SMU) Business Family Institute and caring for the underprivileged children from AWWA and lonely seniors staying in one-room flats.

The ability to manage risks well and capitalise on opportunities within sight for future returns depends largely on the leadership at the top. In 2019, our CEO and Managing Director received the EY Entrepreneur of the Year Award in Financial Services sector which is a recognition of his achievement among individuals and companies that demonstrate vision, leadership and success in building sustainable businesses.

Moving forward, we are committed to invest in strengthening our staff training and development roadmap. We believe that long term investment in human capital is the key to the long term sustainable success of ValueMax Group. As part of the larger global community, we are also supportive of initiatives that will let us play a bigger role in the national arena in the near future.

Board of Directors

ValueMax Group Limited

At **ValueMax**, we recognise the importance of sustainability to our business. This sustainability report will highlight the challenges and material issues that are important to our stakeholders, our strategy in managing these challenges and issues, and how we have performed in terms of our key performance indicators.

Scope of Report

During the year, we adopted a formal reporting approach by applying the international reporting framework, Global Reporting Initiative ("GRI") Standards, in preparing our sustainability report.

For reference to the GRI Content Index, please refer to Page 23-27.

Our Strategic

Approach to Sustainability

With our vision and corporate values in mind, we are making an effort to integrate sustainability into the business model of ValueMax so that it is systematic and seamless. Where possible, we incorporate sustainability considerations in our decision-making processes.

Our sustainability efforts are led by our senior management who ensures that the Group's business objectives are in line with our commitments to sustainable development. Senior management is responsible for on-going communication to the Board of Directors.

Senior management has determined focus areas where ValueMax can have the greatest economic, environmental and social impact, as well as the areas that are most important to our stakeholders.

ValueMax has taken efforts to seek the opinion of internal and external stakeholders either formally or informally. We aspire to understand the needs and expectations of our key stakeholders and strive to build mutual beneficial relationships.

Governance Structure

Reporting

Boundaries and Standards

The report is also prepared in accordance with GRI Principles for defining report content, including:

- **Materiality:** Focusing on issues that impact business growth and are of utmost importance to stakeholders. Responding to stakeholder expectations and interests.
- **Stakeholder Inclusiveness:** Presenting performance in the wider context of sustainability.
- **Sustainability Context:** Including all information that is of significant economic, environmental and social impact to enable stakeholders to assess the Group's performance. We use a consolidated operating approach to determine organisational boundaries. Our data is an aggregation of our 35 outlets in Singapore. Our base year is 2017, the year we produced our first sustainability report.
- **Completeness:**

Reporting

Period and Scope

This report covers data and information from 1 January 2019 to 31 December 2019 and discusses ValueMax's achievements and performance towards Environmental, Social and Governance issues. This report has been prepared in accordance to the GRI Standards: Core Option.

ValueMax prints only limited copies of this annual cum sustainability report as part of our environmental conservation efforts. Current electronic edition of the report is available at: www.valuemax.com.sg.

Accountability to Stakeholders

We strive to be a responsible corporate citizen by working closely with our stakeholders to understand their concerns and feedback. The stakeholder engagement provides valuable information for our sustainability reporting, particularly in determining the material environmental and social issues. We will continue to engage our external stakeholders more extensively to identify areas that are material, sustainable and necessary for future development.

Corporate Profile

ValueMax provides pawnbroking, moneylending, retail of jewellery and timepieces, as well as gold trading services. With a history dating back to 1988, ValueMax grew over the years and in 2013 became the first pawnbroking chain to be listed on the mainboard of the Singapore Stock Exchange. Drawing on a solid track record of professional service and in-depth industry knowledge, ValueMax has expanded to 35 pawnbroking and retail outlets at strategic locations throughout Singapore and has two other pawnshops operated by associated and investee companies. Abroad, ValueMax operates 12 outlets in Malaysia through its associated companies. ValueMax is also involved in the business of gold trading and moneylending.

An award-winning company, ValueMax and its subsidiaries have received various awards and certification which include:

- (i) EY Entrepreneur of the Year in 2019 by our CEO and Managing Director, Mr Yeah Hiang Nam, PBM
- (ii) Singapore Quality Class – Service Award in recognition of our commitment towards business and quality Excellence;

ECONOMIC

Economic Contribution to Society

Each of our outlets is operated by a team of professional valuers and operations staff, overseen by ValueMax's corporate office. We manage our operations in accordance to our sustainability principles. We work closely with our management and operation staff to identify and consider any sustainability opportunities and risks that may arise.

Sustainability trends such as climate change, resource scarcity and demographic changes shape the competitive environment in which ValueMax operates by introducing long term sustainability opportunities and recognising risks. We therefore view our business performance beyond short term gains and financial bottomline. Our conviction is to achieve a balanced triple bottomline in 'People, Profit, Planet' for sustainable growth both for the organisation and the community it operates in.

The success of our business is highly dependent on the commitment of our management and staff. Their knowledge, professional expertise and their job satisfaction are key to our economic sustainability.

More importantly, we strive to contribute positively to the society through our economic presence by contributing to the range of short to medium term credit facilities to individuals and corporations, while maintaining good stewardship of the resources we manage and generate good shareholders' value.

Our business model focuses on cost leadership without compromising our service level and highest priority on customers' interest. We seek organic growth from the existing outlets as well as through the acquisition of new businesses that reap good returns.

We strive to maintain our market position by ensuring we gain the trust of our customers and their families, while consistently building our reputation and brand name in the pawnbroking, moneylending, retail and gold trading industry.

In today's highly volatile business environment, ValueMax has, beyond sustained earnings, diligently embraced prudent financial management, capitalised on our assets and investments, and remained focused on growth strategies, to enhance shareholders' value.

For more information on ValueMax's financial and business performance, please refer to Annual Report FY2019.

ECONOMIC

Group Businesses

PAWN BROKING

The main business of the Group is pawnbroking service. Pawnbroking is a form of collateralised loan. Pawnbrokers pledge personal valuables as collaterals for the loans extended. Typical pledges include jewellery in yellow or white gold, diamond jewellery, and branded timepieces. Gold, platinum or silver bars and coins are also pawned.

MONEY LENDING

The Group's moneylending business grants both secured and unsecured loans. The main target market for the moneylending business includes businessmen and corporates that have urgent cash needs. In addition, the Group also provides financing to the automotive industry.

RETAIL OF JEWELLERY AND WATCHES

The Group sells both new and pre-owned jewellery at all its outlets. The merchandise includes gold and diamond jewellery, gold bars and coins, branded watches and Hermès bags. Pre-owned gold and diamond jewellery undergo a makeover process to look new, while pre-owned watches are polished and the movements thoroughly checked. The rejuvenated pre-owned items are sold at attractive second-hand prices.

GOLD TRADING

The Group's gold trading wholesale company purchases scrap gold from its own subsidiaries as well as other pawnbrokers and jewellery traders, while it sells fine gold bars to jewellery factories, wholesalers and retailers.

REMITTANCE

The newest addition to the group's business provides the service of remitting money to overseas countries.

GOVERNANCE

Legal Compliance and Corporate Governance

Corporate governance and compliance have always been one of the top priorities for the Group. The decision-making process in the Group is strictly in line with legal and regulatory requirements under the Ministry of Law and in compliance with the Code of Corporate Governance issued by Monetary Authority of Singapore and the guidelines of the Monetary Authority of Singapore.

ValueMax is a member of both Singapore Pawnbrokers Association and Credit Association of Singapore which have regular meetings with the regulating authorities under the Ministry of Law.

In FY2018, the Group received a fine from the Registry of Pawnbrokers for having an employee from the pawnbroking business assists in retail sales for three of the outlets. The regulation has since changed and pawnbroking employees are now permitted to assist in retail sales. The Group has not received any other notification in relation to any non-compliance of current legislation.

Ethics and Integrity

We promote an ethical and 'act with integrity' culture throughout the Group and our outlets. We seek to conduct our business in an ethical manner and in compliance with the best practices in the pawnbroking and moneylending industries. All Directors, valuers, operations and management staff are required to fully comply with our principles set in our Employee Handbook and employment contract.

Anti-Corruption and Anti-Fraud

With zero-tolerance policy on bribery and corruption, we have in place effective monitoring and management control systems to detect bribery, fraud or other malpractice activities directly at the source. We have established a whistle-blowing mechanism for employees and any other concerned stakeholders such as customers and their families, suppliers, competitors and contractors.

A direct whistle-blowing channel has also been implemented to enable our employees to get direct access to our Managing Director and CEO as well as our Chairman of Audit Committee. By doing so, our stakeholders can be assured that all reports or suspicion of potential breaches of our Employee guidelines are taken seriously by the Group. Our stakeholders can also reach our Executive Director or CFO via telephone or email through the contact information listed on our website.

GOVERNANCE

Responsible Lending and Anti-Money Laundering

ValueMax has established policies and procedures to manage risks for its moneylending, pawnbroking, gold trading and retail businesses.

The Group is committed to complying with all applicable laws and regulations related to the prevention of money laundering and terrorism financing, and to deterring customers, suppliers, borrowers and pawners from using ValueMax as a conduit for illegal activity. The Board expects all employees to be vigilant to prevent any illegal use of the Group's products and services by money launderers, terrorists or those financing terrorist activities.

To reflect this commitment, the Group has developed a Prevention of Money Laundering and Terrorist Financing ("PMLTF") Framework and the related procedures and controls by drawing on best practices from related financial industries with significant PMLTF compliance activities.

The objectives of this Framework are:

- To protect the Group from having its products and services used by money launderers, terrorists and parties that finance terrorist activities;
- To protect the reputation of the Group;
- To achieve compliance with all applicable legal and regulatory requirements;
- To identify and adopt strong, risk-based industry practices in relation to PMLTF.

Compliance with Laws and Regulations

The Group is proactive in ensuring its compliance with all relevant laws and regulations across all outlets. Our management team is responsible for reviewing and monitoring the Group's policies and practices in respect to legal and regulatory requirements across all outlets. Any non-compliance of the relevant laws and regulations and the proposed resolutions will be reported to the Board of Directors on a quarterly basis.

The Group has put in place policies and procedures to ensure compliance with the relevant laws and regulations, particularly those relating to Pawnbrokers Act and Moneylenders Act. At the corporate level, we also ensure that we are in compliance, both in substance and in spirit, with the Listing rules of Singapore Exchange Securities Trading Limited, Securities and Futures Act and Singapore Companies Act.

Any new enactment of or changes to the relevant laws and regulations will be communicated to all operations and management staff via emails and small group meetings. Such communication is necessary to ensure that all staff are aware of the changes and can carry out the necessary steps and actions to ensure compliance.

While we seek to leverage our data to serve our customers responsibly, we adhere and uphold the Personal Data Protection Act ("PDPA"). We have put in place policies to ensure we are in compliance with PDPA and we respect our customers' choices in respect of their personal data and the protection of our customers' privacy.

The main purpose for which personal data is collected by ValueMax in Singapore is to furnish information to our customers pertaining to our products and services, to record their credit loans and their accounts, process payments, to address questions and feedback, as well as where permitted under law, to send them our marketing and promotional offers on products and services, as well as personalised content and advertising based on their preferences and demographics.

There has been no incidence of product and service misinformation, mis-labelling or inappropriate marketing communications.

GOVERNANCE

Risk Management

The Group recognises the importance of risk management and how business risks may adversely affect ValueMax's business performance. Since 2013, we started our Enterprise Risk Management ("ERM") framework to roll out a systematic approach to identify, assess and manage risks. We are pleased to update all stakeholders that our ERM framework is now fully implemented.

While it is the responsibility of the Audit Committee, as delegated by the Board of Directors, to oversee the effectiveness of our risk management and internal controls, the core function of the ERM framework is coordinated by our Chief Financial Officer who reports to the Audit Committee on a periodic basis.

For further details on Risk Management, please refer to corporate governance section of Annual Report FY2019.

Supply Chain and Procurement Practices

Our supply chain constitutes mainly the suppliers for our gold trading and retail businesses for all our outlets, of which a strong partnership with the suppliers has been maintained.

We believe in transparency in our supply chain and our approach is to positively engage with suppliers if any issues have been identified. Any non-compliance with the guidelines of local and international regulatory bodies will result in us not embarking on the procurement and business relationship with them.

Service Quality and Responsibility

Our service quality and responsibility to our customers rank high for the sustainable success of the Group. We are committed to provide fair valuation of the valuables our customers bring to our chain of outlets and we emphasise on service excellence for every customer.

Our valuers and professional staff serve our customers professionally and ethically. Customers are advised on the valuation of their collaterals based on the current market price as well as the terms of their contracts.

There has been no incidence of non-compliance with laws and regulations in the social and economic area.

ENVIRONMENT

We believe our business has a low impact on the environment. Nevertheless, we strive to embrace environmental sustainability by managing environmental conservation through adopting waste minimisation, recycling and energy efficient practices.

We have installed LED lightings at our headquarters and new outlets as our first step towards energy conservation.

With our flagship store at Waterloo Centre being newly certified as an Eco-shop in 2018, four of our outlets have embarked on the Eco-shop programme in collaboration with the Singapore Environmental Council (“SEC”). The project aligns our environmental performance in the four outlets to key evaluation criterion like indoor environment and air quality, resource recovery and recycling, water and energy conservation.

Target

We intend to roll out the same eco-shop standard to all our shops over a period of 3 years.

Water and Energy Conservation

We tap on the water supply provided by Public Utilities Board and dispose used water into the public sewage system.

While we take conscientious efforts to conserve water and electricity, we are currently reviewing our utilisation rates and will implement measures to reduce the utilisation rates. The electricity and water consumption in 2019 has increased over 2017 due to an increase in the number of outlets.

	2019		2018		2017	
	Consumption	Expenditure	Consumption	Expenditure	Consumption	Expenditure
Electricity	1.63m (KWH)	\$269,686	1.13m (KWH)	\$242,949	1.02m (KWH)	\$231,468
Water	13,223m ³		11,946m ³		9,050m ³	

Paper Usage

We have launched our Go-Green initiatives across all our outlets and corporate office. The implemented initiatives aim to encourage the ‘Reduce, Re-use, and Recycle’ of papers through the following ways:

- Reducing the use of papers by printing on both sides of the paper and printing only when necessary.
- Re-using single-side printed papers for non-confidential and draft documents. We plan to roll out electronic and paperless daily operations reports.
- We are committed to use paper from sustainable sources where possible.
- We are looking into recycling all used papers and printed materials by donating to authorised recycling companies.

SOCIAL

People

Pivotal to our success is our people performing at their best. We value the contributions by all employees towards sustaining ValueMax's long term success. To underscore our care and commitment towards our employees, ValueMax's holistic human resource ("HR") strategy focuses on fair remuneration and equal opportunities, training and development, employee wellness and engagement, and work-life harmony. We are taking progressive steps to go beyond mere compliance with labour laws in Singapore to develop and implement policies and staff engagement programmes that aim to help employees build a long and fulfilling career with ValueMax.

Diversity and Equal Opportunity

Identifying, recognising and rewarding performance in employees is essential in our hiring and retention strategy. We advocate fair employment practices by ensuring equal opportunities for recruitment, fair compensation, career progression and training opportunities. We provide fair employment opportunities to all, regardless of age, gender, race, or nationality. ValueMax advocates a policy of harnessing diversity in human resource as evidenced by a fair distribution of employees from varied nationalities and age groups to support our key markets in Singapore and Malaysia.

Nationalities of Employees

As at 31 Dec 2019

Gender Ratio

We advocate gender diversity in our Board, with one female director among our six Board members.

There is a balanced gender ratio between the male and female employees. We ensure that fair work practices and remuneration are ascertained based on individual work performance and not on any gender consideration. No form of discrimination is tolerated within our organisation. There has been no incidence of discrimination reported during the year.

We maintain a policy of employee diversity through providing employment opportunities to both young and older workers above 55 years old. As at 31 December 2019, the youngest staff is 22 years old while we have five senior staff aged 70 and above.

SOCIAL

Age Profile of Employees

As at 31 Dec 2019

The recruitment and retention of talents include cooperation with professional institutions, talent pool development and retention, and staff grievance mechanism.

In terms of employee skills profile, we have maintained a fair proportion of professional and management team to lead and drive the business growth in our four main business segments.

Our business is dependent on experienced staff who have been in the pawnbroking business for over 10-20 years. Through the acquisition of new businesses over the years, we have also retained the workforce of the acquired entities and strengthened our pool of senior valuers whose professional expertise in valuation of jewellery and watches has been critical in the sustainable success of our pawnbroking business.

We are continuously recruiting talents, particularly younger talents and grooming them through mentorship and on-the-job training programme.

Our recruitment policy is based on meritocracy and the pre-requisite skills and academic qualifications required to perform the required job scope. During recruitment, we implement stringent shortlisting processes to ensure we recruit people with the same values as we do.

We focus on retention of talents by providing fair and sustainable financial and non-financial incentives, and through learning and development opportunities. Our compensation and benefits policies are determined by guidelines proposed by our human resource team and approved by our Management team or our Board. All our staff undergo an annual performance review and receive periodic performance feedback from their reporting managers.

SOCIAL

We offer equal opportunities for skills training and career development for all employees of which has contributed to our high staff retention rate of 88.5% in 2019.

Staff Retention

Employee Wellness and Benefits

The Group contributes to the Central Provident Fund Scheme and provides medical benefits such as hospitalisation and surgical plans for all employees. We provide maternity as well as paternity leave in accordance with the recommendations of the Ministry of Manpower of Singapore ("MOM").

In 2019, we recruited 27 employees in tandem with the opening of six new outlets during the year and encountered a turnover rate of 11.5%.

Training and Education

Apart from providing fair and sustainable financial incentives to our employees, we also strive to create a culture of learning organisation through the following ways:

- **Mentorship**

We have a strong culture of mentorship throughout our organisation. Our senior management leads and develops the organisation in achieving the goals and vision of the Group. Our senior valuers provide guidance and professional support, on-the-job training and coaching to our junior valuers.

- **Training and Skills Upgrading Opportunities**

We are constantly developing our employees through providing regular feedback and trainings. We believe that everyone needs to know what are the areas they need to improve on, and for those with high potential, career tracks are developed to give them a career roadmap of where they can advance progressively within ValueMax. Trainings through conferences and courses relating to their work are critical to equip our employees with up-to-date professional knowledge and skills in serving our customers better.

Training and Education	2019	2018	2017
Average training hours per employee	46.5 hrs	38.0 hrs	32.5 hrs

Target

We target to maintain or increase the average training hours per employee over the next 3 years.

SOCIAL

Health and Safety

The Group is committed to embracing the highest standards of Workplace, Safety and Health (“WSH”) and environmental practices and inculcating the best practices in the Group. We are guided by the steadfast commitment to our employees for a safe working environment in which one can work and excel with full confidence.

The management team has set a strong foundation by providing a clear direction within the organisation of the value of an effective occupational health and safety management approach to foster risk-free and environmentally-friendly premises for our employees and customers. We are building the environmental awareness and green practices to lead the group in adhering to all WSH regulations as stipulated by the MOM. There has been no incident of non-compliance concerning health and safety issues with our products and services.

The Group conducts annual Workplace Health and Safety risk assessment for all our outlets as well as onsite assessments and training for employees to heighten WSH awareness at the workplace.

Labour-management Relations

It is important to have effective communication between management and employees, so that employees are more engaged with the organisation, and have a more positive attitude towards their work and loyalty to the Group. They are provided with frequent management updates and adequate notice period regarding operational changes.

We often engage our employees in the following ways:

- **Monthly Meetings**

Outlet managers have monthly operations review with the management team.

- **Quarterly Meetings**

Management conducts quarterly meetings for **Board of Directors** to discuss on business development and financial performance.

- **Informal Small Group Meetings**

Management holds informal small group meetings to listen and understand our employees’ concerns and grievances.

Business Partner and Stakeholder Engagement

We actively engage our business partners and stakeholders regularly to keep them abreast of the developments of our businesses.

Please see the section on Accountability to Stakeholders on page 4 for more information.

Customer Privacy and Data Protection

The nature of our pawnbroking and moneylending businesses warrants high level of security and confidentiality of our clients’ personal data as well as the business transactions they have undertaken.

We adhere strictly to the guidelines set by the Personal Data Protection Act. We have invested to ensure our proprietary IT system meets the highest standards for IT security. Our confidential documents are disposed by waste disposal firms to ensure maximum security.

There has been no incident of substantiated complaints concerning breaches of customer privacy and loss of customer data.

COMMUNITY

Corporate Social Responsibility

Being a corporate responsible citizen, we believe in giving back to the society. While we strive to achieve our financial goals and objectives, we also believe in playing our part in serving our local community.

Over the last three years, ValueMax has actively participated in business and community initiatives:

Year: 2016

Singapore Public Service Medal 2016

Mr Yeah Hiang Nam, PBM, CEO and Managing Director, was awarded the Public Service Medal in 2016 for his contributions to society and business. Instituted in 1973, the Public Service Medal is awarded to any person who has rendered commendable public service in Singapore or for his achievement in the field of arts and letters, sports, the sciences, business, the professions and the labour movement.

Mr Yeah is currently a Patron of the Clementi Citizens' Consultative Committee (CCC) and has rendered service to the community since 2000. He is also the Honorary Presidents of Singapore Pawnbrokers Association, Teo Yeonh Huai Kuan and Yeow Si Gong Huay.

Year: 2016-2017

Singapore Management University Business Families Institute

For two consecutive years – 2016 and 2017, ValueMax contributed to the Singapore Management University's Business Families Institute to support its mission to enable business family members to be engaged and be responsible stewards of their families, businesses and communities, through education, research and ecosystem support.

SMU received matching grants from the Singapore government for the contributions made by ValueMax.

Year: 2017 and 2019

SGX and E50 Association 2017 Seminar: Listing on SGX

Imparting insights at a listing seminar co-organised by Singapore Exchange (SGX) and Enterprise 50 Association (E50 Association), ValueMax spoke on "Listings for SMEs". Our Executive Director, Ms Yeah Lee Ching shared on ValueMax's experience in the listing of the Group.

COMMUNITY

Year: 2017

SmileAsia

In 2017, ValueMax Group contributed to The Smile Mission organised by Smile Asia through their fundraising event.

Smile Asia is a Singapore-registered charity which provides free treatments of facial deformities like cleft lip and cleft palate. In 2016, the charity contributed to 1,706 surgeries across 24 medical missions in Asia.

Year: 2017-2019

UOB Charity Drive

ValueMax has been one of the donors for the UOB Heartbeat Lunar New Year Outreach Charity Drive. Funds raised were donated to charitable organisations like The Business Times Budding Artists Fund, The Straits Times School Pocket Money Fund, Fei Yue Community Services, and Very Special Arts Singapore Ltd. Our Executive Director also volunteered at a home for the special needs under the UOB Charity Drive in 2018.

Year: 2018

Caring for the Students at AWWA Special Student Care Centre

ValueMax employees brought joy and laughter to students with special needs by chatting, playing, and dancing together with them, as well as fulfilling their Christmas wishes by surprising them with individualized Christmas presents.

Year: 2019

Caring for Seniors under Happy Folks

Our office employees actively participated in caring for the elderly by spending time with aged seniors staying alone in one room flats, to bring them joy and brighten their day.

Target

We target to organise yearly events involving our employees to reach out to underprivileged members of society with special needs.
